

Stress Relief and Well-being Strategies for Teachers

by Bára Rodi

Course details

- 🕒 One-Week course
- 💶 Starting from 480€* (cultural activities included)
- 📄 Certificate of attendance included (80% of attendance required)
- 📍 Available in Amsterdam, Helsinki, Prague, Rome, Tenerife, Trapani

* a 60 € late registration fee will be applied if you register less than 8 weeks before the course start date.

Course description

Having enough time for **self-care and well-being** is very important for teachers: after all, the more relaxed and balanced they feel, the more effectively they can also engage their students!

And yet, finding this time can be difficult, as teachers must divide their energy between lesson planning, grading papers, and all the hard hours of teaching - not to mention the even hardest requirement of school meetings!

Fortunately, there exist **effective strategies to manage stress**, and thus reduce burnout, together with other mental health issues, and **improve health, happiness**, and effectiveness at work.

As a participant in this very practical course, you will learn what causes stress, how our bodies and minds respond to it, and how we can combat and revert its effects.

You will focus on how to **strengthen your body** through improved sleep, nutrition, and exercise. And you will make practical exercises to **improve mental health and well-being** through stress reduction and resiliency-building.

The rich background of the trainer (trained as both a medical doctor and an educator) will help you dive deep into the topics, based on research strategies to **relieve stress** and supported by evidence-based medicine.

By the end of the course, you will have not only acquired the theoretical bases for a healthy life but also have experienced and practiced concrete tools to improve your personal well-being, as well as that of your students.

Learning outcomes

The course will help the participants to:

- Master some basic concepts of physiology and psychology (e.g., stress, wellness, burnout);
- Understand the causes of stress reaction and the effects of stress on the body and the mind;
- Discover the eight dimensions of wellness;
- Evaluate and manage their own wellness;
- Relieve stress and anxiety on a day-to-day basis with practical tips and tools;
- Improve one's sleep and nutrition through simple tips and small lifestyle changes;
- Practice simple exercises for relaxation and well-being from mindfulness, yoga, and positive psychology;
- Apply basic strategies for burnout prevention.

Tentative Schedule

Day 1 - Introduction to stress management

- Introduction to the course, the school, and the external week activities;
- Getting to know each other and icebreaker activities;

- Identification of learning needs and goals;
- Presentations of participants, their schools, and the trainer;
- Introducing basic terms: stress, wellness, illness, and their impact on teaching.

Day 2 - Understanding stress

- Eustress vs. distress (short-term and long-term stress);
- The physiological and mental impact of stress;
- Stress prevention;
- Burnout questionnaire, signs of burnout;
- Coping strategies and stress “first aid”.

Wellness

- Understanding the concept of wellness continuum by John Travis;
- Evaluating your own 8 dimensions of wellness.

Day 3 - Breathing and relaxation techniques

- Understanding the importance and physiological impact of relaxation techniques;
- Anti-stress and anti-anxiety breathing;
- Box breathing, activating diaphragm;
- Jacobson (progressive muscle) relaxation;
- Autogenic training.

Simple exercise for school breaks

- Office yoga;
- Stretching;
- Simple tips for involving more movement in your life.

Day 4 - Improving your sleep to improve your wellness

- How sleep influences our health, memory, and cognitive functions;

- 20 tips for better sleep quality;
- Daily routines and habits for better sleep;
- How to help your students sleep better.

Nutrition for stress periods

- Understanding the different nutrition needs in stress;
- Macro and micronutrients;
- Ideal dietary regimens for different body types;
- Vitamins, minerals, and natural supplements to combat stress;
- Healthy snacks and lunches for busy school days.

Day 5 - Mindfulness-based stress reduction (MBSR)

- Addressing the unconscious thoughts, feelings, and behaviors to decrease stress;
- Mindfulness meditation;
- Practical experience and tips for practicing at school and at home.

Building emotional resilience

- Recognizing, labeling, and understanding emotions;
- Practicing gratitude, perspective, and complex view;
- Self-belief, self-compassion, and motivation;
- Positive psychology.

Day 6 - Course closure & cultural activities

- Course evaluation: round-up of acquired competencies, feedback, and discussion;
- Awarding of the course Certificate of Attendance;
- Excursion and other external cultural activities.

About the provider

With more than 300 courses available all over Europe and more than 20,000 participants per year, Europass is the largest network of high-quality providers of teacher training courses.

In every Europass Academy, trainers of diverse experiences and backgrounds are ready to foster human and professional connections among educators, all while delivering high-quality, innovative courses.

Furthermore, thanks to the hands-on, collaborative nature of the Europass courses, plenty of opportunities to start new projects and lifelong friendships are given.
